

“Flight 29 Down”

A group of teens are stranded on an island in the South Pacific after they crash their plane in a tropical storm. They were on their way to a camping adventure together.

A video camera, powered by a solar battery charger, allows the kids to talk about themselves and their difficult everyday struggles, the island, and each other.

Write a text about life on a deserted island, and the team from “Flight 29 Down”.

Remember: A title, a structured text and your own personal reflections.

Here are some things you can write about:

- How did they all end up on the island?
- What are they all doing on the island?
- What do they eat?
- How do they find water?
- Who is Nathan, Daley, Melissa, Eric, Cody, Lex, Taylor and Abby.
- Who is the leader, and why?
- What are they doing to call for help?
- How are they all going to get rescued? What do you think?

Write as much as possible. Use English all the time!
